

## **Niwot Ridge LTER GIS the current situation** *(TEAMML legacy data to Niwot Ridge Database):*

- Vast amount of Legacy data from Skip and Marilyn Walker's TEAMML.
- Recently finished creating metadata for all GIS layers in the database from existing data dictionaries.
- Projected all layers to have the same projection.

# Niwot Ridge LTER GIS the current situation

*(New Tactics):*

- Installation/Implementation of ArcSDE/SQL Server 2000
- In process of moving all GIS layers to the ArcIMS Metadata Explorer (25 so far).
- Coverage delivery via FTP (*Live Data and Maps not yet functioning*)
- Future...integrate plot locales with tabular data.
